

Extension activities and institutional social responsibility

colleges play a vital role in social responsibility among the students. We realize that the purpose of education is not just preparing students to earn a livelihood but more so to make them good human beings.

Values of caring and sharing with the underprivileged to become self-reliant so that they can live with respect and dignity.

Botany department encourages a life-long journey of community and services to identify the need and problems by taking interviews.

Institutional education/research/extensions are based upon the basic human values to help the community as a whole to lead a successful life in changing our neighborhood society which is also serving the strength of our institute.

1. Ecofriendly campus.
2. Workshop for farmers.
3. Guidance to farmers
4. Interview of farmers by students.
5. Participation and help to the government through District Internship programme.
6. Identification of factors that affect the environment.
7. Making students stakeholders. And society conscious about environment, its protection, conservation. The department takes the responsibility to conserve the environment.

Through cleanliness drive, NSS activities. To fulfill the aim of spreading environmental consciousness among youth of today.

8. Helping teachers and students in preparing projects.
9. Botany Association run by department under which various activities are organized.
10. Student participation in extension activities is made mandatory for all UG students in NSS and NCC.

Botany department conducted various activities to encourage the hidden talent and enthusiasm of students in the field of plant science. Herbarium Exhibition (local survey of Kalamb and Sautada region), Interdepartmental competition, workshop, exhibition are held along with research paper presentation by students to teach them research skills.
